FROZEN SERVICE LINES

Section 42 of the Water and Sewer Bylaw states that city residents are entitled to one free thaw once per year.

To prevent repeated freezing, the City may authorize or instruct the property owner to connect an approved "bleeder" line or open an approved tap.

If you experience frozen service lines, you will need to contact a plumber to determine the cause and fix the problem.

SUSPECT A LEAK?

1. Turn off all taps, and ensure any appliances that use water are not running.
2. Check your water meter (usually found in your basement or crawl space) write down the number or take a picture.
3. Wait an hour or two and check the meter again. If the number has increased something is leaking.
